- Project has all required components.
- Involves commercia cloud (Digital Ocean)
- Project is very original and presents a good engineering solution.
- Consideration of fault tolerance is commended.

Specific comments on slide presentation:

- Good slide deck and presentation
- Presentation is short (10 min), could have paced it slower.
- Read up on Internet resources why full sentences in a slide are discouraged.

Specific comments on demo video:

- Video shows multiple scenes and has annotations. .
- Parts of the narration are much too fast.

Specific comments on report:

- On details of prototype, slide presentation is more informative than the report.
- For more feedback, see annotations in attached file.
